and Compliance

William Barry quoted in *Compliance Week*

Compliance Week

March 3, 2010

On March 2, 2010, Richards Kibbe & Orbe LLP partner William P. Barry was quoted in the *Compliance Week* article "DoJ Tells Pharma to Brace for FCPA," which discusses the strong warning the Department of Justice recently issued to those in the pharmaceutical and healthcare industries regarding fraud, corporate corruption and the severe consequences that may be involved. Mr. Barry explains that the increasingly aggressive investigatory techniques by federal prosecutors should act as warning signals to compliance and legal departments within the industry, and details actions that may be taken in order to reduce the risk of FCPA violations.
