

Mission & Culture

OUR MISSION

Our mission is to achieve the best results for our clients. We fulfill that mission by doing our best work every day for every client, striving for excellence in all we do and acting with the highest levels of integrity and ethics.

OUR CULTURE

While we have a thriving, sophisticated practice and the technological and support resources associated with New York's finest large firms, we work hard to preserve the small-firm character that reflects our origins. We are committed to a team-oriented, collegial environment that makes our work both professionally and personally rewarding. We respect our clients, our attorneys, and our staff. We deliberately foster a community that values the diverse contributions, talents and backgrounds of all our people.
